Search Criteria Information for ApplicationXtender

Primary ID = Tank ID Facility/Project/Pad name = Facility name
Secondary ID = Administrative Order # Responsible Party name = Owner name
Leak ID Number= Leak number associated with the site

Need More Help with Search Criteria

If you do not know the information to put into the search criteria you can follow the directions below to get the information you are needing.

1. Go to <https://apps.dep.wv.gov/tanks/public/Reports.aspx> which is a public access reporting web portal where you can pull reports on underground storage tanks (USTs) or aboveground storage tanks (ASTs), leaking ASTs, and leaking USTs.

2. Click on Aboveground Storage Tank Reports.

3. For AST, Click on All Active ASTs (FOIA) (Excel) or for LAST click on the Open or Closed LAST Cases by county to get an excel spreadsheet of all registered regulated and non-regulated tanks in our AST database

Aboveground Storage Tanks

Tanks

[All Active ASTs \(FOIA\) \(Excel\)](#) - Active ASTs (CIU and TOS) with details.*

[All Active Owners \(PDF\)/\(Excel\)](#) - Owners of active ASTs with tank count by level

[Hydrocarbon Production ASTs \(Excel\)](#) - Hydrocarbon Production ASTs with capacity of 8820 gallons or less

Leaking Tanks

[Open LAST Cases By County \(Excel\)](#) - Active leaking AST cases. Filtered by county.**

[Closed LAST Cases By County \(Excel\)](#) - Closed leaking AST cases. Filtered by county.**

4. The report will open up in excel and you can search the spreadsheet for tanks you are looking for. *Please be cautious that addresses have changed over time, addresses have been updated in our database to reflect the more specific location. Also, when searching for street addresses that there may be different spellings for example: Rd, Road, Route, Rt, Highway, Hwy, St. and Street.

*There are very few cases, but there are some sites that have 2 facility numbers mostly at old sites (one for the active facility, one for the abandoned tanks at the facility)
