

Compliance Bulletin

Correction to Previous Compliance Bulletin Vol. 8 Issue 8: eDMR – False Significant Noncompliance Violations

The purpose of this bulletin is to clarify/correct the instructions given in previously issued Compliance Bulletin Vol 8 Issue 8 dated December 14, 2021.

Updated Instructions:

It is still necessary to take the sample in the required time period as stated (Quarterly, Semi-Annual, Annual, Seasonal). Until further notice, **PLEASE REPORT ALL SAMPLES, REGARDLESS OF THEIR SAMPLING FREQUENCY, IN THE ACTUAL MONTH THE SAMPLE WAS TAKEN AS LONG AS IT IS IN THE REQUIRED TIME PERIOD.**

Unfortunately, current programming will not allow reporting samples outside of the actual month the sample was collected without producing validation errors. This is being addressed and further guidance will be sent out once corrected.
